Installation Flexigar

The allowed Windows-systems will be send by email on demand.

<u>Download Installation Flexigar :</u>
Download installation files : ftp://pat01:6464@ftp.dynamic.be/Setup Flexigar2000
- systemflex.zip
- SPI7.6.1.exe
- Setup 6 3 0.zip
- Teamviewer.exe

      Setup Flexigar 2000 -6_3_0.zip (Extract and install)
      Change install directory in c:\Flexigar2000
<u>Installation Dongle :</u>
SPI7.6.1.exe

<u>Install Teamviewer</u>.
From my Ftp download and execute Teamviewer 7.exe
.

      Setup Flexigar 2000 -6_3_0.zip (Extract and install)
      Change install directory in c:\Flexigar2000
<u>Getting the same version on this computer :</u>
- Copy the all the files from another Flexigar computer.
- Register ALL the ***.dll files in C:\Flexigar2000\
  (open with regsvr32.exe in the windows\system32) and choose to open this files
  always with the regsvr32.exe.
  In Windows 7 and Vista, select 15 at a time to register and make sure you have full
  administrator rights.
- Open Flexiregall.bat as administrator.

ADMINISTRATOR WIN7 = open CMD and run as administrator, then type :
net user Administrator /active:yes   Then restart. This is the real Administrator account !
<u>Connecting the database :</u>
- Delete from the folder : C:\ Flexigar2000\… the file →**connection.dat**
- Execute C:\ Flexigar2000**Wisreg.exe**

LEAVE EMPTY

DATABASE

REPORTS

Validate, restart Flexigar 2000 and install the update directory to the server.
**Very important : Printing update :**

Making a Back up !!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
(Server only)
Icon on your Desktop →   Backup2000 →   **click on file/parameters**

Make sure the path to the "kopie directory" is filled in and the drive letter to your extern media is correct. This may also be the letter of your memory stick.
For 1 euro a day we can make an automatic safe BACK-UP for you on a secured server.

ERROR 91
In case of error 91 while starting up Flexigar
CHECK IF YOU HAVE ENOUGH RIGHTS TO OPEN A DATABASE ON THE SERVER LOCATION
C:\Flexigar2000\flexiregall.bat   (execute this file) as administrator.
Register the following dll-files under these directories :
C:\Program Files\Common Files\Microsoft Shared\DAO …..
                \fichier commun (French windows)
C:\Program Files\Common Files\System\ado ……
                \fichier commun (French windows)
